COMPANY HISTORY:

OTW Safety started manufacturing water ballast traffic control devices in 1993. The design of water ballast devices make them easy to transport and set up when empty, but heavy and stable when deployed and full of water. In addition, the company more recently began selling portable, anti-terrorism barriers, a natural extension for the company which sells thousands of barricades for security purposes every year.

PRODUCT LINES:

Plastic, Water-Filled Barricades and Barriers
Portable Anti-Vehicle Barriers
Flood and Erosion Control Barriers
Work Zone Traffic Control Devices

ANTI-TERRORISM VEHICLE BARRIERS:

RSS-3000 MSB- Portable Electric Drop Beam Barrier

FLOOD CONTROL:

MB24x48 Mongo Block can be quickly deployed for flood and erosion control. The mongo block will effectively replace the need for sandbags. One Mongo Block will replace the time and labor of filling and installing 100 sandbags.

AIRPORTS - Plastic low profile barricades:
