

MB42x72 KT

Features:

This defense barricade's large volume design makes it ideal for high threat and security applications because it holds more water. It is lighter and more easily deployed than concrete road barriers, requiring only two people to set up. The MB42x72 KT can be used individually or used in conjunction with U-connector placed under barricade. This heavy-duty unit is fabricated to ballistics testing requirements.

Specifications:

- Can be set up to create an interconnected wall with no intermittent gaps.
- Vandal-proof system has the capability of locking in such a manner that discourages section disconnection once attached.
- Provides structural integrity for anti-ramming.
- Offers cable capability to reduce lateral deflection and vehicle penetration.
- Cabling system is capable of connecting with stationary objects to form a continuous line of protection.

Optional Accessories:

- Stanchions can be utilized with snow fencing to increase height.
- Pre-molded attachment area for flashing lights.
- Interchangeable signage: directional, reflective, and/or advertising display panel option.
- U-connector creates vandal-proof interlocking longitudinal wall.
- Two multi-strand cables of up to 37.5 tons nominal breaking load can be installed.
- Compatible with Multi-Barrier™ model MB31x120 to create wall of varying height.

COLORS:

Orange, white, custom colors

COMPOSITION:

High impact, UV resistant, polyethylene.

SIZE:

Height: 42" / 106.6 cm
Length: 72" / 182.8 cm
Width: 24" / 60.9 cm
Reg. Wall: .25" / 6.35 mm
HD Wall: .312" / 7.9 mm

WEIGHT:

Reg: Empty: 130 lbs / 58.9 kg
Full: 2200 lbs. / 997.9 kg
HD: Empty: 170 lbs. / 77.1 kg
Full: 2240 lbs. / 1016 kg

WATER BALLAST:

248 gallons / 938.7 liters
