

MB42x72 JSS

Features:

This portable plastic barricade is ideal for perimeter delineation, crowd control, construction sites, and parking areas. Extremely durable, once positioned, barricades are very difficult to move. Typical deployments include security, ACP (Access Control Points), traffic control approaches, stand-off zones, perimeter/boundary lines, and hazardous material spills.

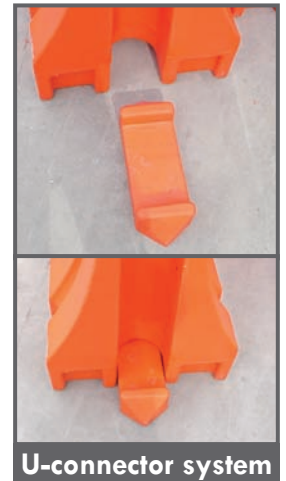

Specifications:

- Can be set up to create an interconnected wall with no gaps.
- Vandal-proof U-connector system has the capability of locking in such a manner that prevents repositioning once set up.
- Available in approved OSHA safety colors.

Optional Accessories:

- Our plastic Jersey Style barricades use a patented locking device, the U-connector to keep barricades from being forced apart.
- Stanchions can be utilized with snow fencing or chain link to create a secure zone..
- Pre-molded attachment area for flashing lights.
- Compatible with Multi-Barrier model MB42x96 JSS.
